    <h1>Hello World!</h1>

    <h2>A few facts about the world we live in</h2>
```

<p>Earth is the third planet from the Sun and is the largest of the terrestrial planets. Unlike the other planets in the solar system that are named after classic deities the Earth's name comes from the Anglo-Saxon word erda which means ground or soil. The Earth was formed approximately 4.54 billion years ago and is the only known planet to support life.</p>

<h3>Top 3 earth facts</h3>

The Earth's rotation is gradually slowing.

A year isn't exactly 365 days, and the earth doesn't take 24 hours to rotate

70% of the earth's surface is water, and only one third of its fresh water is unfrozen
